

Ground Enhancement - Minerals

Why Choose Us?

- ⚡ Positive low resistance electrical connection to the earth
- ⚠ Does not contain any Hazardous chemicals
- ⚡ Never need Recharging
- ♻ Environmentally Friendly
- 🔌 Stable Permanent ground for the life of the grounding system contains a corrosion inhibitor to protect copper
- 🛡 Compatible with all copper GI, MS & Stainless Steel Grounding systems.
Will not leech into the ground
- ⚡ Electrically conductive.
- 📏 Will not expand or experience an shrinkage
- ❄ Not affected by freezing
- ⬇ Simple to install
