

# HT VCB Panels

## Why Choose Us?

-  Customer choice of protection, metering and control including SCADA interface.
-  Total compartmentalisation with earthed metal partitions render live parts inaccessible eliminating accidental contact.
-  Floor mounted VCB with ramp & spring charging handle.
-  Self aligning automatic primary junctions to the power circuit.
-  Provision for padlocking of feeder and busbar shutters.
-  Intelligent Switchboards with Computer & BMS interface.
-  Bottom opening / top opening (with fixed VT) for guiding.
-  Power pack arrangement(optional).
-  Removable shrouds at main busbar joints/tap off.
-  Conforms to IS & IEC standards.
