

“K” Rated Isolation Transformers

Reduce the Failure of Electrical Power Department Equipments

Why Choose Us?

-  Protect Computers & CNC Machines
-  To Protect Against Strong Lightning, Impulse Noise, Bus Short-circuit, Accidental Discharge of Capacitors
-  If Ground of The Equipment Cannot be Earthed
-  Eliminates Stresses That Come From Normal Electrical Transients
-  Effectively Counter Power Line Problems Like Noise, Spikes
-  Copper Windings
-  Lower Output Impedance
