

Servo Controlled Voltage Stabilizer

(3 KVA - 1000 KVA)

Recommended for Optimum Voltage Supply and Stabilized Output.

Why Choose Us?

-  DSP Based High Speed Correction
-  Excellent Output Stability
-  Efficiency of Over 98% at Full Load
-  User Friendly HMI
-  Field Programmable Servo Parameters
-  Suitable for 100% Duty Cycle
-  Easy Customization
-  Extremely High Overload
-  Life at Full Load is More Than 15 Years
-  Very High Reliability
-  Easy to Service
-  Wear & Tear Controlled
-  Rugged Design with High MTBF
